## **Vatnfundur (Water meeting : in faroese)**

Arni Petersen

Faroese Food and Veterinary Authority, Tórshavn, Faroe Islands

### **Abstract**

(FYRIBILS)

Ein vatnfundur stíðlaður komunalum vatnmeistarum og øðrum við áhuga fyri vatnveiting í føroyum. Fundurin verður hildin á føroyskum.

Á skranni verða 4-6 fyrilestrar um ymisk viðkomandi viðurskiftir fyri vatnveiting í Føroyum

(PRELIMINARY)

A mini symposium aimed at the water managers and water system workers in the municipalities and people with interest in the water supply systems in the Faroe Islands. The minisymposium will be held in faroese.

In this minisymposium 4-6 presentations will be given on relevant subjects regarding the water supply systems in the faroe Islands.

**Examples** of the presentations are:

1. Water management in the Faroe Islands in a historic perspective
2. Water analysis and sampling methods - how it is done and what to be aware of
3. On sampling frequencies'
4. FFVA is planning a questionnaire for the municipalities on drinking water issues this spring. The results could be presented at this venue
5. Environmental aspects of drinking water systems
6. ??

N.B: This is a preliminary abstract. If there is an OK from you we will start arranging a venue for 1/2 a conference day.
