i-WSSM:

International Centre for Water Security and Sustainable Management

Category 2 Centre under the auspices of UNESCO

Located in Gyeonggi-do, near the city of Seoul in the Republic of Korea

To support water security strategies for sustainable development

Focusing on SDG 6 (to improve accessibility to clean water and sanitation)

IHP-IX: Science for a Water Secure World in a Changing Environment

What we are doing...

Research & Development

- Water-related Research projects
- Publication of Global Water Security Issues (GWSI) Series
- World Water Development Report Korean Executive Summary
- Development of educational programme modules

Education & Capacity Building

- Tailored education programs for developing countries
- Development of capacity building programmes

International Networks for Water Cooperation

- Establishment of an information hub for water security

Series of Global Water Security Issues

WHAT

- **Co-publication of UNESCO and i-WSSM in cooperation with IWRA**
- **Open access listed in the UNESCO Digital Library**

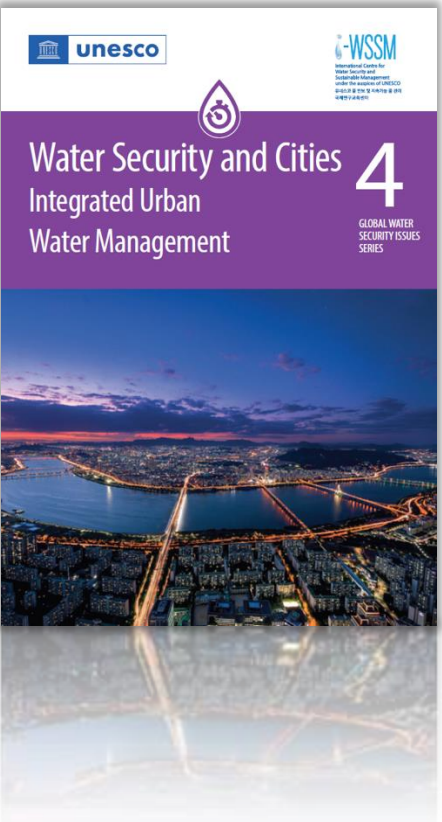

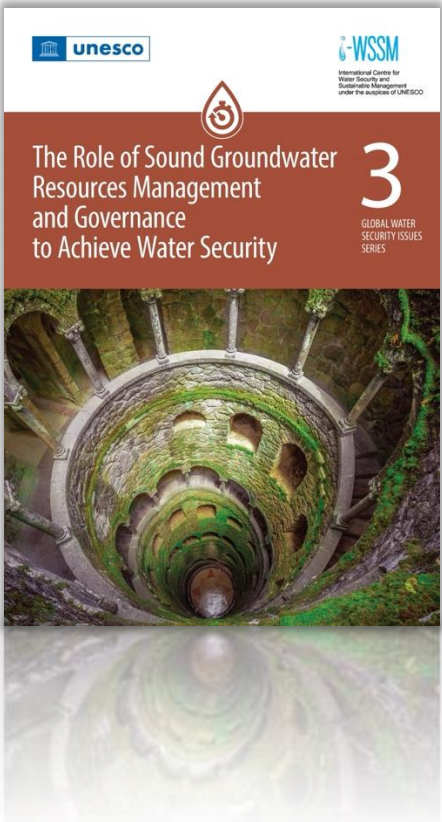

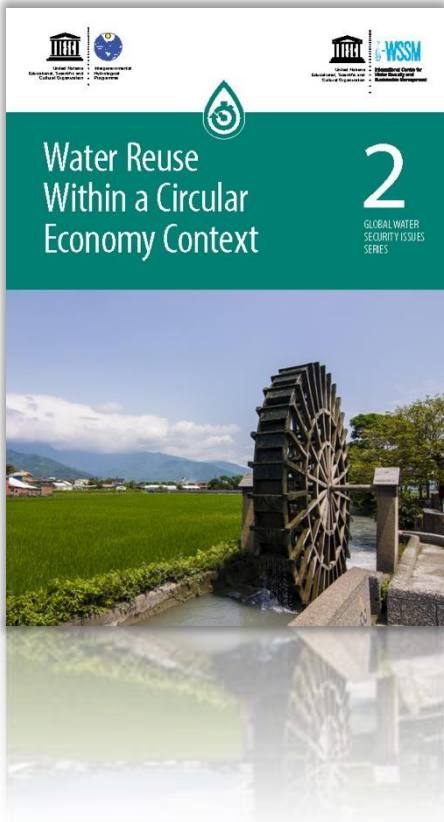

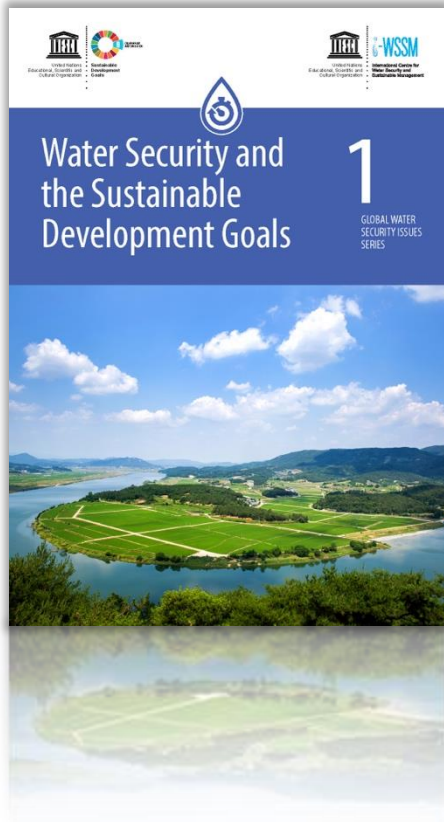

WHY

- **To disseminate the current important issues**
- **To share knowledge and experiences from diverse perspectives**
- **To contribute towards achieving water security in the long term**

HOW

- **Theme selection**
- **Call for proposals**
- **Potential paper selection according to UNESCO's gender equality and African priority strategies**
- **Peer-reviewing and revision procedure**
- **Final acceptance & publishing**

Series of Global Water Security Issues

GWSI 4: Integrated Urban Water Management

- ◆ GWSI: Global Water Security Issues

- ◆ Co-publication of UNESCO and i-WSSM

- Listed in the UNESCO Digital Library

- ◆ Presents various case studies and implementation of Integrated Urban Water Management (IUWM), including 11 chapters of:

- IUWM and city planning (2)
- Stakeholder engagement and practical experiences (2)
- Innovation to meet urban water demand (3)
- Frameworks for IUWM solutions (4)
